Portfolio

I am an inquisitive, dynamic individual with strong technical skills allow me to understand and navigate web development with ease. I enjoy working in challenging environments and work well under pressure. I have the ability to think on my feet, I am solution driven, resourceful and aim to use my skills and abilities to achieve the company's goals.

Work Experience

Project Management (Final Year Project)   February 2022 – June 2022

- Working collaboratively well with team.
- Ensuring that we scheduled our own time to deliver programming and documentation tasks from specifications against assigned priorities in line with project timescales.
- Monitoring team's on-going progress, and consolidate the inputs for timeous documentation submission and falling under one of the highest scoring teams with a score above 70%.
- Ensuring that all work is implemented to specification on schedule, with good quality and within   effort estimated and utilize my programming skills.

Volunteering

Sub-Committee Member of Safety and Security Desk   March 2022 – November 2022

- Involved in safety and security management in the residence for the protection of girl students and trainings to maximise safety and security within the residence
- Conducting inspections of residence, ensuring emergency doors are closed and used only for emergency(such as fire in the building or when conducting fire drills).
- Attending meeting and documenting all completed tasks.
- Ensuring residents follow safety and security protocols.
- Calling security personnel when there was an intruder in the building.

Portfolio Projects

Personal Portfolio Website

- A portfolio website(responsive) built using simple HTML, CSS and JavaScript , I used CSS to optimize the website for different screen sizes so users can view website from mobile phones or desktops.

Netflix Clone

- **https://netflixcclone.azurewebsites.net/**
  A Netflix clone website(unresponsive) built using simple HTML, CSS and JavaScript , I used CSS to optimize the website for different screen sizes so users can view website from mobile phones or desktops.
